

BillTrak Suite
Cost Management

BOOST PRODUCTIVITY, DRIVE DOWN COSTS, AND MAXIMIZE SAVINGS OPPORTUNITIES

Making Your Cost Management Team More Effective

Effectively managing the huge volume of inter-company invoices received each month is an intense challenge for today's communications service providers (CSPs).

TEOCO's BillTrak Suite is a workflow-based application that manages the end to end processing of all telecom expense invoices. BillTrak Suites' combination of invoice automation, customized workflow, automated audits coupled with circuit inventory and rate management modules make the application well suited to manage all of your telecom expense invoices and to help you save millions in network cost every year.

TEOCO's BillTrak Suite processes over \$40 billion each year in telecom invoices through TEOCO's license, SaaS, and outsourcing delivery options.

Maximizing Cost Savings Opportunities

BillTrak's customized workflow ensures your business processes are integrated in all telecom expense management activities.

- Eliminates the tedious, costly and error-prone task of manual invoice data entry.
- Identifies over and/or under billings, and dispute and reconciliation opportunities.
- Expedites the negotiation of dispute claims resolution and the receipt of credits.
- Provides visibility into and control over nearly all aspects of your payables processing workflow.
- Automates the assignment of GL and A/P codes using your business rules with override available for exceptions.
- Provides detailed reporting for SOX Compliance.

BillTrak SUITE FEATURES

Invoice Processing

TEOCO recognizes the burdens that vendor management, electronic media coordination, invoice receipt and loading places on your limited resources. We coordinate, receive and load 100% of your vendor invoices, regardless of currency or format, using our patented software process. Invoices are routed through the BillTrak Suite custom workflow based on your business rules for key functions such as auditing, account coding, approval, and payment.

Inventory Management

Provide a detailed side by side view into your billed circuits and circuit & provisioned inventories.

Claim Management

Integrated within the BillTrak Suite workflow, it automates the life cycle of your dispute claims: creation including the vendor specific claim forms, filing, settlement process and eventual resolution. Save time and money while favorably resolving more claims.

Payment

A custom 2 way feed with your financial system: an automated scheduled process will transmit invoice payment data from BillTrak Suite to your Account Payable system and import payment data such as check information into the BillTrak Suite.

Reporting

BillTrak Suite includes over 20 standard reports to help support your analysis needs, such as: detailed analytics on payment information, dispute metrics, cost analysis and trending, user productivity, and management KPIs. The reporting also gives you the ability to create your own reports to support critical objectives, i.e.: month end close reporting packages. Reports can be automated and scheduled.

ABOUT TEOCO

TEOCO is a leading provider of analytics, assurance & optimization solutions to over 300 communication service providers (CSPs) and OEMs worldwide.

Our solutions enable the digital transformation of CSPs while enhancing their network QoS, improving their customer experience and reducing their operational costs.

Through advanced analytics and automation, TEOCO solutions provide actionable and measureable insights into network and customer behavior. This includes the optimization, effective monetization, and delivery of new and existing services, such as VoLTE and Video.

Our commitment to network flexibility and agility makes TEOCO the obvious choice for CSPs looking to leverage NFV/SDN and the rise of 5G, and to maximize the revenue potential of new opportunities tied to video and the emerging Internet of Things (IoT).

**Global

**Proven
Solutions**

“TEOCO is bridging the gap between operations functions, particularly traditional engineering, planning and network optimization, and the business-defining monetization functions of revenue generation, customer experience, and margin management. Stratecast believes this makes TEOCO a company to watch.”
