

TEOCO SmartCOGS®

WHOLESALE COST MANAGEMENT

With SmartCOGS, TEOCO continually generates an average 5-12% annual cost savings for its carrier customers.

Achieve Millions in Cost Savings

TEOCO SmartCOGS® is a cost management suite of software and services designed specifically for telecom providers to manage large volumes of invoices from partners and vendors with efficiency and accuracy. With the ability to convert nonstandard invoices into electronically loadable formats, it eliminates the messy management of 3rd party operational costs by automating and optimizing how they are collected, analyzed, processed and paid. The result is millions in operational cost savings for Communications Service Providers (CSPs).

GAIN THE ULTIMATE VISIBILITY AND CONTROL OF YOUR EXPENSES

Wholesale Telco Cost Management: Comprehensive handling of wholesale telecom invoices, with customizable workflows for timely and accurate payments and efficient dispute resolutions.

Smart City/Pole Rental Expense Management: Effortless oversight and management of third-party pole rentals and invoices.

Utility/Energy Expense Management: Centralized management for thousands of vendors and hundreds of thousands of monthly utility payments for electricity, gas, water, and waste, ensuring timely payments, error detection, and full invoice visibility with dedicated support.

SmartCOGS Benefits

INCREASED EFFICIENCY

Eliminate manual errors and costs, with full vendor management and late invoice tracking.

IMPROVED ACCURACY

Identify over and/or under billings, and track disputes and reconciliations.

EXPEDITED DISPUTE RESOLUTION

Expedite the negotiation of dispute claims and the receipt of credits.

AUTOMATED CODE ASSIGNMENTS

Automatically assign GL and A/P codes using your own business rules.

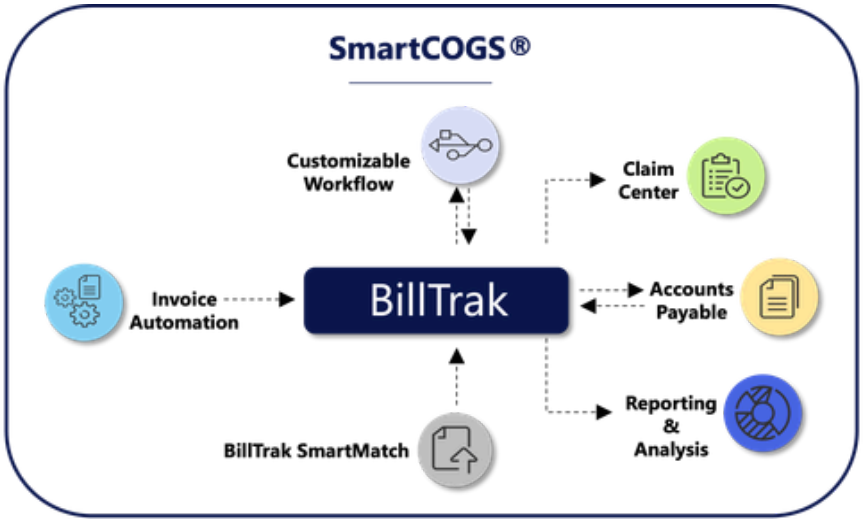

TEOCO SmartCOGS FEATURES

SmartCOGS enables CSPs to reduce expenses, automate workflows, and improve financial accuracy. Powered by TEOCO's BillTrak platform, SmartCOGS features capabilities that ensure the efficient and accurate end-to-end management of 3rd party invoices - spanning invoice processing, inventory/claims management, payment and reporting.
