

TEOCO SmartCOGS® Utility

UTILITY EXPENSE MANAGEMENT

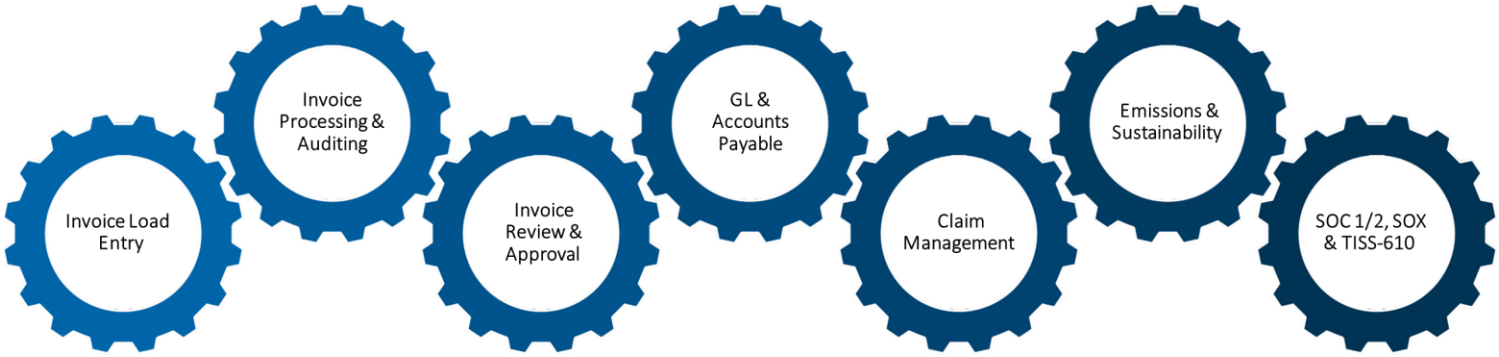

Electricity rates have increased by over 25% in the last 5 years. SmartCOGS helps keep these costs under control.

One Platform for the Utility Invoice Lifecycle

SmartCOGS Utility is purpose-built for telecom operators to manage the entire utility invoice lifecycle, from ingestion through validation, payment and reporting. It centralizes invoices from hundreds of vendors and automates collection, validation, payment and reporting for visibility across every site.

GAIN FULL VISIBILITY AND CONTROL OF YOUR UTILITY SPEND

SmartCOGS Utility Benefits

INCREASED EFFICIENCY

Eliminate manual errors and reduce costs with full vendor management and late invoice tracking.

OUTAGE RISK MITIGATION

Flag missed payments, prevent shutoff notices, outages and eliminate emergency reconnects.

PORTFOLIO VISIBILITY

Audit each invoice, flag billing errors and usage spikes and build accurate accruals across regions and suppliers.

COST CONTROL AT SCALE

Advanced analytics and optimization to aggressively manage growing costs.

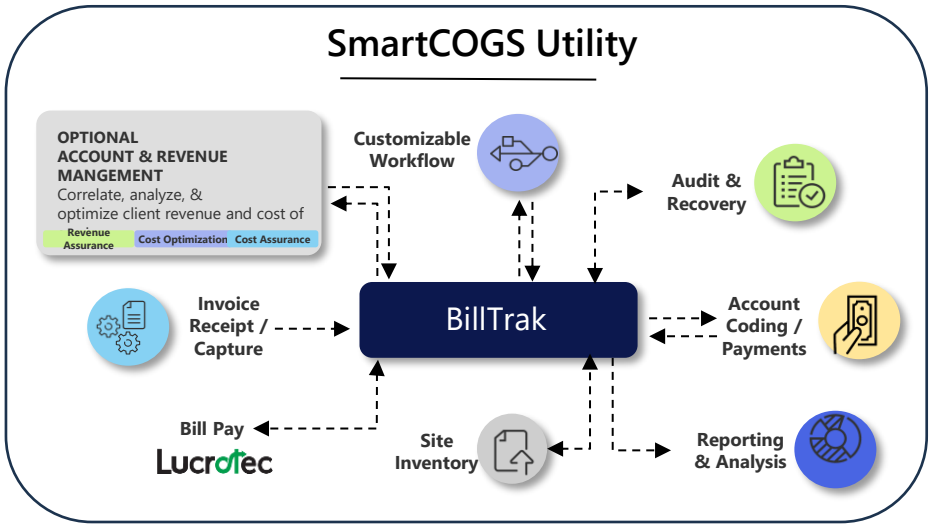

SmartCOGS UTILITY FEATURES

SmartCOGS Utility enables telecom operators to reduce utility spend, automate bill payment and improve financial accuracy. Powered by TEOCO's BillTrak platform, it delivers efficient, accurate end-to-end management of every utility invoice — spanning ingestion, validation, payment, accruals and portfolio reporting.

HANDLES ANY INVOICE FORMAT

REDUCES EXPENSES & IMPROVES MARGINS

SIMPLIFIES REGULATORY REPORTING

INCREASES EFFICIENCY & LOWERS OVERHEAD COSTS

IMPROVES PAYMENT ACCURACY

EXPEDITES DISPUTE RESOLUTION

AUTOMATED BILL PAY

Accept utility bills in any format from any provider; standardize, validate and flag errors and anomalies automatically.

TIMELY BILL PAYMENT

Automated schedules ensure no bill is missed. Prevent shutoffs and reconnect fees.

CUSTOMIZABLE WORKFLOW

Configure approval routing, thresholds and exceptions to match your finance and operations processes.

ACCOUNTS PAYABLE INTEGRATION

Two-way data feeds sync validated utility payments with your AP system and GL codes.

ANOMALY DETECTION

Flag billing errors, rate changes and usage spikes across sites before they hit your budget.

REPORTING & ACCRUALS

Benchmark sites, build accurate accruals and surface savings across regions and vendors.

VALUE ADDED SERVICES

Our expert team uncovers hidden savings across your utility portfolio:

Rate & Tariff Intelligence / Audit, Dispute and Credit Recovery / Utility Contract Management / Analytics and Scenario Modeling / Network-Informed Forecasting / Energy Sourcing and Procurement

SAAS OR MANAGED SERVICE

Deploy SmartCOGS Utility as software, or let TEOCO run your entire utility invoice lifecycle as a fully managed service.

TEOCO

MANAGE EVERY UTILITY INVOICE, ACROSS EVERY SITE

SmartCOGS Utility gives operators one place to ingest, validate, pay and report on every electricity, gas, water and waste invoice, turning a fragmented, error-prone process into timely, accurate and fully visible network-wide cost control.

Control Utility Costs at Scale

Manage the 2–3× increase in power consumption per site as 5G and AI demands grow, with full visibility and control across your portfolio.

Never miss a utility payment.

Automated bill pay eliminates disruption of service and emergency reconnects across every site and vendor.
